

Presidents Report

We are all working as hard as we can to get our Republicans elected. While preparing for a meeting I came across an excellent article from a training presented by Rick Tyler of the Leadership Institutes Advanced School of Politics called "The Art of Winning Elections".

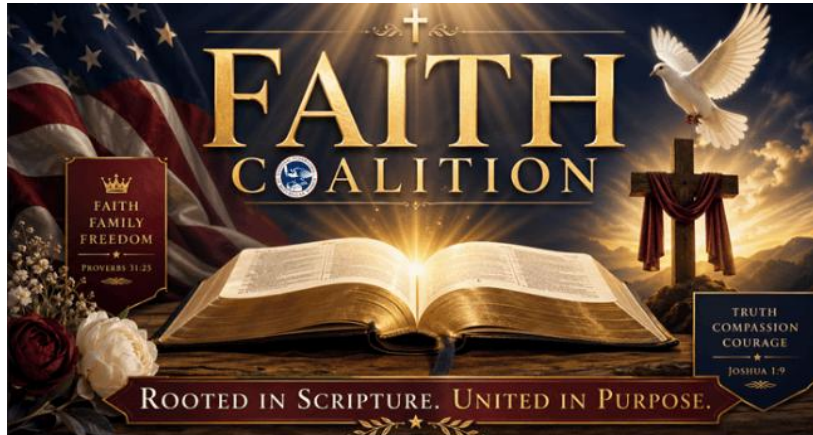

In it he explains "There is a real difference between being politically aware and being politically active. Awareness changes nothing by itself. Action can change everything. Feeling informed, righteous, and validated gets you nowhere. Making a difference will leave you tired, frustrated, and uncomfortable. But only action, not awareness, has a chance of changing the future."

Rallies for example attract attention and rallies supporters but rarely persuades voters. Taking action on the other hand, knocking doors, making calls, talking to people...changes outcomes.

We have 5 weeks before the elections begin.....time to become politically active....ask....how can I help?

NFRW Regents Program

The NFRW's major goal is to increase the representation of women, and for more than 30 years, the Regents donor program has been important in achieving this goal. Our Regents' and Capitol Regents' kind investments enable us to carry on this objective by:

- Providing operating capital which allows the NFRW to maintain a low general membership rate, making membership affordable to women of all ages and economic backgrounds
- Financially supporting a wide range of NFRW education and training programs, special projects, networking events and other activities that help Republican women stay informed, develop skills and achieve their goals at the grassroots, state and national levels
- Providing networking opportunities and experiences with Republican dignitaries

And now Introducing the new Eagles program for men who want to invest in the future of the National Federation of Republican Women!

The NFRW Strike Force

The **NFRW Strike Force** is laser focused on helping all U.S. Senate and U.S. House Republican candidates WIN their mid-term elections while helping all down-ballot Republican candidates too!

Research proves **GOTV Door Knocking Campaigns** produce more voter participation than phone banking and mailers. GOTV Door Knocking Campaigns are where the rubber meets the road—they represent the critical moment when campaign volunteers connect directly with voters to encourage turnout and ensure every supporter makes it to the polls.

Elections

Early Voting starts
October 6, 2026

What you can do to help!

Poll Challengers Needed!

Poll Challengers are needed in all Counties at all Polling places.

We are lucky that so many of our past challengers have stepped up to work at the polls but extra eyes are still needed to keep our elections fair.

Don't know what to look for? We can help. Along with the training provided by your County Clerk, we offer additional training including the current election law and processes you will see at the polls and counting/canvassing centers. Contact Janice Arnold-Jones Bernalillo County or Nancy Brenna Valencia County for more information.

Spotlight:

Nidiamaka Okpareke "Didi"

Candidate for Congressional District 1

Nidiamaka Okpareke (**you can call her "Didi" for short!**) was born from immigrants who came to the United States from Nigeria in search of the American Dream after surviving the destructive and genocidal Biafran war in Nigeria from 1967 to 1970. Didi's parents instilled in her the values of hard work, family, community, and faith in God. New Mexico has been Didi's home for almost 30 years. She's lived in Albuquerque since 1997, attending Sandia High School and graduating UNM as a proud Lobo!

In 2016, Didi became a business owner. She launched out on the gutsy mission to build and start her own company, Olive Tree Compounding Pharmacy. Throughout her career as a pharmacist, she's witnessed the essential healthcare needs of New Mexicans.

The accomplishment Didi is most proud of is her family. Didi is a mother of three boys. Her children are her source of pride and joy. She considers motherhood to be the greatest gift that God has ever blessed her life with.

Unfortunately, the same American Dream that Didi's parents pursued and achieved is on the brink of extinction for our children and future generations. New Mexico's political leaders, especially our federal delegation, have fallen in line with a radical agenda that prioritizes rhetoric over results. New Mexico is first in all of the 'bad' categories and last in all of the 'good' categories. We need experienced leaders that deliver **more results, and less rhetoric**—and Didi believes that if you want something done right, you need to do it yourself. **She's running for Congress to protect the freedoms, values, and opportunities that brought her parents to America so that they can be preserved for not only our children, but for all of New Mexico and generations to come.**

Lets keep the energy going and keep our eye on the prize! Elections are coming!

Thank you!
